## ENCOUNTERING ANTHROPOSOPHIA

On the Alchemical Path to  
Founding the Stone of Love  
In the ground of the Human Soul

ADRIANA KOULIAS

Rudolf Steiner tells us that the ancient Greeks were speaking of the total human being, spirit, soul and body, when they let resound the ancient word of the Sun, the word of Apollo: 'Know thou thyself!' This call came not only from the cosmos but also from the heart and it meant: 'Soul of Man! Know thou thyself in the weaving existence of spirit and soul and body, in all that streams down from the heights and works in the encircling round and rises up through the forces in the limbs, know that this is the foundation of your life, your feelings, and thoughts!

Rudolf Steiner tells us that this call was mediated by a being responsible for guiding a heavenly wisdom to the earth to quicken a spiritual alchemy in the human soul through self-knowledge. This being whom the Greeks saw as Sophia, and whom Dante saw as Lady Philosophy, was unveiled in our times by Rudolf Steiner as the being of Anthroposophia. During two lectures Adriana Koulias will explore the nature of this being, and her tasks, and she will speak of the real supersensible encounter with Anthroposophia that can be experienced by those who embark on that path of Spiritual Alchemy that is at the heart of the Foundation Stone Meditation.

# I INITIATES OF THE GRAIL UNITE!

"Verily, this is written in the karma of every single anthroposophist: Be a man of initiative, and beware lest through hindrances of your own body or hindrances that otherwise come in your way, you do not find the centre of your being, where is the source of your initiative. Observe that in your life all joy and sorrow, all happiness and pain will depend on the finding or not finding of your own individual initiative. This should stand written as though in golden letters, constantly before the soul of the anthroposophist. Initiative lies in his karma, and much of what meets him in this life will depend on the extent to which he can become willingly, actively conscious of it."

## ...AND THE FIFTH CHAMBER FRANK CHESTER

"This knowledge which Rudolf Steiner had concerns 'the fifth chamber of the heart'. The idea is that in our time there are certain changes taking place in the heart, by which gradually a fifth chamber will develop. In this fifth chamber man will have a new organ which will allow him to control life forces in a different way than is possible at the moment.

(...)The radiation from this etheric organ of the heart is actually developing into a spiritual sense organ. A new sense organ is developing in this etheric heart, and this is the only organ by which man is able to sense and to recognize the Etheric Christ".

*Ehrenfried Pfeiffer December 17, 1950*

In researching the geometry of the human heart, Frank Chester has discovered how a Fifth Chamber can evolve. The heart will have to rotate just five degrees and a new valve will form.

"Balancing" says Frank, "is the primary function of the heart. Our inner work improves balance. When we are able to see 'periphery' and 'center' simultaneously; when we see 'self' and 'other' with equal equanimity, then we give the heart a loosening quality of balance that allows it to evolve etheric forces.

Frank will take us with him on his path of discovery.

## ... IN THE MYSTERY OF DEATH KELLY CONNOR

In the U.K. Kelly Connor is a public figure. She is able to speak on the radio and TV about the Anthroposophical view of life beyond death and is invited to work with people in many spheres of life concerning the responsibilities, freedoms and insights that this gives us.

"The spiritual intention behind kamaloca is to provide irrefutable proof of the importance of Consequence, in particular the consequence of how we treat each other. Every action, every thought, every intention that we experience with or towards another person binds us to that person if the other person is bound to the consequence of our previous encounters. The pain of this is amplified by the knowledge that once dead, we can no longer take steps to heal or rectify the situation.

And yet, each of us that are alive can still have influence over the way in which we allow consequence to remain bound up between the so-called dead and ourselves. We can choose to hold onto our thoughts and feelings towards the dead, or we can strive to loosen the bonds. After all, it is because we are bound together that our attention is called toward the kamaloca journey of the 'dead' one. In other words, after the threshold of death has been crossed, the dead are completely reliant on the living to effect any change in whatever karma (i.e. consequence) binds the two together."
